Please complete the tables on pages 1,2, and 6 below and return as a Word document to pete.myatt15@gmail.com at least 7 days before the date of the planned event. Thank you. Please note that the person completing the Risk assessment is also responsible for briefing the organisation's attendees of hazards, risks and control measures affecting the building and the organisations activities.

If activities, conditions, and/or circumstances change substantially for Regular Events a new form must be submitted.

If activities, conditions, and/or circumstances change substantially during a One Off event the risk assessment (Page 7) must be amended to show the new situation together with the control measures enacted for mitigation.

Any accident or incident must be documented and reported to <a href="https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://h

Room/Area	What are the hazards? (Who may be harmed and	Risk Control Measures (Action required to eliminate/reduce risk)	Residual Risk (after action		
	how)		required to reduce risk)		
	sharp edges, broken glass, crockery.				
Toilets	Attendees especially vulnerable people. Getting shut in Bruising from falling on wet surfaces Scolding hands on hot water	Monitor toilets regularly Keep area tidy, mop up spills immediately, pick up dropped material immediately. Signs warning of water temperature Emergency Alarm system in disabled toilet	Low		
Outside Area	Attendees especially vulnerable people. Tripping or falling on slope or hard surfaces Scratches from brambles and plants	Slope salted on frosty days Keep area tidy, remove trip hazards Arrange help for people with mobility issues .	Low		

Risk Assessment Grading

The activity specific risk assessment requires the assessor to grade the likelihood and severity of an accident or incident and record the action taken to eliminate or reduce the overall risk to low.

The likelihood of something happening can be graded as:	The severity of injury if something does happen can be graded as		
1 = Low (Seldom)	1 = Low (Minor cuts and bruises)		
2 = Medium (Frequently)	2 = Medium (Serious injury or incapacitated for 3 days or more)		
3 = High (Certain or near certain)	3 = High (Fatality or a number of persons seriously injured)		

Having assessed both likelihood and severity, a risk rating can be calculated by multiplying the likelihood with the severity. This will give a rating from 1 to 9.

Example

Activity specific hazards (please list activities)	What are the hazards? (Who may be harmed and how)	Likelihood (L)	Severity (S)	Risk Rating (LXS)	Action required to eliminate/reduce risk	Residual Risk (after action required to reduce risk)
Pouring boiling water into a cup	Spilling water onto the operator's hand Operator scalded by boiling water	2	2	4	Place the cup on a tray, keep hands away from cup whilst pouring.	Low

Please complete this table for all the activities to be undertaken by your organisation.

	Community Organisation Cloisters Activity Specific Risk Assessment					
Activity specific hazards (please list activities)	What are the hazards? (Who may be harmed and how)	Likelihood (L)	Severity (S)	Risk Rating (LXS)	Action required to eliminate/reduce risk	Residual Risk (after action required to reduce risk)
Setting up chairs and tables	All attendees Setting up chairs and tables.	2	4	8	When moving tables chairs or other objects only lift weight within your capacity, seek help to move heavier objects	low
Making tea and coffee	All attendees Scalds hot from liquids.	2	3	6	Warn others when moving/carrying/serving hot liquids/substances	low
Plugging in equipment like laptops	All attendees Electric shock from faulty electrical equipment	1	4	4	Check the integrity of leads and plugs on all portable electrical apparatus before use.	low

Emergency Plan

Emergency	Action required	Who is responsible for action
Please add additional potential emergencies if	Please add additional actions if pertinent to your	
pertinent to your event	event	
Fire	Raise the alarm.	
	Call the fire brigade 999 giving precise location of	
	fire.	
	Direct all persons to safety.	
	Try to clear a path for the fire appliance.	
	Tackle the fire only if safe to do so.	
Serious Medical	Call an ambulance 999 giving precise location of	
(Head injury, Spine injury, Stroke, Heart attack)	casualty and if possible, nature of emergency.	
	Call a First Aider.	
Minor Medical	Call a First Aider/Take the casualty to the first aid	
(Cut, bruise, vomiting, suspected broken bone)	station.	
Collapse of structure	Raise the alarm.	
	Call the fire brigade 999 giving precise location of	
	structure.	
	Direct all persons to safety.	
Other please list		

Emergency Services – Call 999

NHS Helpline – Call 111

Nearest Hospital – St Mary's Parkhurst Road, Newport PO30 5TG 01983 534161 (24 hours)

Nearest GP Surgery - St Helens Medical Centre Upper Green Road, St Helens PO33 1UG 01983 871828 (Not 24 hours)
